Molecular Biology

NOTES

Volume 16, No, 10

January 2004

January Seminars

Biochemistry Seminars Mondays 4 pm, MS 326

1/20 The Center for Computational Biology and Bioinformatics and the Department of Biochemistry & Molecular Biology presents: **Dr. Michael Gribskov**, Lead Scientist, Computational Biology, Adjunct Associate Professor, Biology, San Diego Supercomputer Center, Biology, University of California. “**Computational Exploration of the Kinome**” MS B26, 1:30 p.m.

1/26 **Dr. Mark Heiman**, Research Advisor, Division of Endocrinology, Lilly Research Labs of Eli Lilly & Co. “**Perception of the Environment Plays a Role in Maintaining Energy Homeostasis**”, MS 326, 4 p.m.

New Faces in Biochem

We have two new employees: **Kristie Goodwin**, a new postdoc in Dr. Georgiadis' lab, and **Derrin Kirkham**, new Principle Accounts Clerk in Dr. Dunker's lab. Derrin transferred from the Infectious Diseases Dept.

Biochemistry Student Seminars Wednesdays, 12 Noon, MS 311

1/14 **Mandar Joshi**
1/21 **Hao Zhang**
Beth Spurlin
1/28 **Erin Haag Breese**

IUSM Combined Seminar Series Wednesdays, 4:00 pm, Cancer Research (R4) Auditorium 101

1/7 **Simon Conway, Ph.D.**,
Depts. of Pediatrics and
Anatomy/Cell Biology; IUSM.
“**Role of Periostin Adhesion
Molecule in Disease**”, R4
101, 4 p.m.

Important Dates

1/1/04 Happy New Year!
1/2 Biomedical grants due
1/5 Showalter grants due
1/12 Classes begin
1/12 Am. Heart National
1/13 Am. Heart Midwest
1/15 Am. Diabetes Assn.
1/19 Martin Luther King Jr
2/1 NIH New Research;
Center grants
3/1 NIH Competing, Con-
tinuations
4/1 Am. Cancer Society
Research for Indepen-
dent Investigators;
Mentor Training and
Career Development;
Professorship
4/22 Classes end

New Grant Awards

Bill Bosron received a 3-year NIDDK R01 award for the project, “Retinoid Metabolism in Hepatic Stellate Cells”.

Joe Dynlacht received a National Eye Institute (NEI) grant for the project, “Effect of Estrogen on Radiation-Induced Cataractogenesis”.

Get Well Wishes

Keith Dunker is recuperating from a fall .

We hope to see your healthy, smiling face back with us very soon.

Correction

Reuben Kapur of the Herman B Wells Center for Pediatric Research has the Ph.D. and not the M.D. as indicated in the December 2003 issue of Biochem Notes.
